Financial statement analysis is a tool by which one can examine the publicly-available financial statements to determine the financial condition of a company. The

role of the financial statements is to provide information for both internal and external stakeholders, including shareholders and regulators, about a company's finances.

About half of all American adults in their 40s and 50s are part of the "sandwich generation"; they have at least one parent who is 65 or older, and they're also raising a young child or financially supporting a grown child (Pew

Research Center, "The Sandwich Generation: Rising Financial Burdens for Middle-Aged Americans"). These individuals face considerable pressure to balance the need to care ...
