To prepare a basic pulp, place a handful or two of soaked paper and about 2 cups of water in a blender. Put on the lid and blend the ingredients for 15 to 30 seconds, until the pulp has a texture something like runny oatmeal (image 1). If the mixture is thick and pasty, add more water and blend for another 10 to 15 seconds.

The actual act of making a sheet of paper by hand requires a vat, mold and deckle. The vat is the container the pulp floats in. For most hobby makers, this will be your kitchen sink, a washing up bowl or a large plastic tank. You need a flat working surface nearby to place the wet sheets onto, and the whole working area needs to be splash-proof.

Step 1, Choose your paper. For this method, rectangular paper works best. If you are making a gift or a party favor, use brightly colored and/or patterned paper. If you are simply practicing your paper folding skills, use some scrap paper instead.Step 2, Fold the paper vertically in half. If using patterned paper, make sure the pattern is on the outside. Unfold the paper again.[1] X Research source Make sure each fold is creased well. You can crease the folds with your fingernail, a coin, or ...

[How to make a paper snowflake - BBC Good Food](#)

To make a funnel or cone from paper, start by tracing a wide triangle onto a sheet of paper. Make sure the two shorter sides are the exact same length, then cut the triangle out. Next, take one of the far corners and roll it into the center so the paper's edge is touching the middle of the triangle.
