Divina proportione (15th century Italian for Divine proportion), later also called De divina proportione (converting the Italian title into a Latin one) is a book on mathematics written by Luca Pacioli and illustrated by Leonardo da Vinci, composed around 1498 in Milan and first printed in 1509. Its subject was mathematical proportions (the title refers to the golden ratio) and their ...

***This definition fits nicely with the
academic study of geometry, which is
based on rationalism. It has been argued,
however, that there is an opposite but
complementary side to this field of study.
According to this view, geometry has an
intuitive side to it, and that certain
geometrical shapes and proportion
contain sacred meaning.***

[Romans 12:6 We have different gifts according to the grace ...](#)

“Having then gifts differing according to the grace that is given to us, let us use them: if prophecy, let us prophesy in proportion to our faith; or ministry, let us use it in our ministering; he who teaches, in teaching” The gift of prophecy is intended to build up the church and unify it. It’s in the Bible, Ephesians 4:11-13, NKJV ...

Sharia as Divine Revelation. In 17 of the 23 countries where the question was asked, at least half of Muslims say sharia is the revealed word of God. (For more information on sharia see text box.) In no country are Muslims significantly more likely to say sharia was developed by men than to say it is the revealed word of God.

[1 Corinthians 14 - Bible Study Tools](#)

Those who through divine grace are renewed to a spiritual life may yet in many things be defective. The apostle tells them he could not speak to them as unto spiritual men, but as unto carnal men, as to babes in Christ, v. 1. They were so far from forming their maxims and measures upon the ground of divine revelation, and entering into the ...
